

# VALESKA HALAMICEK

APPLICATION DEVELOPER

## TECHNICAL EDUCATION

LaunchCode – LC101 Certification

*July 2018 - Present*

-a course designed to prepare students for a career in technology  
-The course is taught in several coding languages such as Python, CSS, HTML, & C#

## TECHNICAL EXPERIENCE

### Projects

**Blogging App** – <http://github.com/valeskah/blogz>

-Created a multi-user blog site for a class project which allows users to create blog pages for visitors to view. Blog posts are stored in a database and retrieved for display.

-Python, Flask, SQLAlchemy, Jinja, MySQL, HTML

**Restaurant App** – <http://github.com/valeskah/RestaurantApp>

-Creating an application which will allow users to create and filter lists containing restaurants and types of restaurants a user wants to try.

-Like a to-do list, users can mark restaurants as completed and additionally, add restaurants to a “good” or “bad” list based on experience

-C#, Entity Framework, Bootstrap, HTML

## OTHER EXPERIENCE

### Lululemon – Educator

*October 2018 - Present*

-Providing guests with education regarding product, culture, and community

-Communicating product uses and features

-Fostering respect for self as well as others; thereby, encouraging health and wellness among guests and peers

-Ensuring community awareness and involvement

### Augusta Brew Haus – Server

*June 2017 - August 2017*

-Insured quality and friendly service to customers and adhered to company expectation of excellence

-Managed closing duties such as reconciling transactions and distributing gratuities
